

This document must be retained for future reference.

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation.  
All connections should also be inspected periodically to ensure correct tightness.

DO NOT USE POWER TOOLS ON THESE PRODUCTS

## RC-1MS

- Single hole empty control station
- Metal enclosure with protective shroud
- Compatible with RB2-PY9330 Legend Plate

Features	
Height	72mm
Width	72mm
Depth	57mm
Weight	0.29 Kg
Colour	Yellow lid on grey base
Enclosure construction	Die cast aluminium
Standard	EN 60947-5-1
Degree of protection	IP65
Operating temperature	-25°C to +70°C
Related products
